

St. Alban's RC Primary School - Sports Funding 2020/21

Total number of pupils on roll (Nur - Y6)	222
Total amount of PE funding received	£18020

IMPACT STATEMENT 2019 -20

- All the Y6 Children leaving St Alban's can swim at least 25m.
- Swimming is now offered to Year 2 children in the Summer term, preparing them for their Year 3 lessons.
- Residential opportunities offered to Year 4, 5 & 6.
- Extension of curriculum dance & basketball lessons to form afterschool clubs.

- We employ Mr Marshall, a quality sports coach, to deliver some of our quality PE lessons during teachers PPA time. ***This is funded out of school budget, not Sports Funding.***
- Mr Marshall sources high quality sports coaches to come into school to provide quality teaching in some areas of PE - for example Gymnastics, Basketball and Dance. Our aim is that as well as teaching the children we can develop the teacher skills, knowledge and confidence to deliver this area of PE in the future.
- Teachers monitor the curriculum coverage during PE lessons
- When the class teacher is not teaching PE, they will observe some of the lessons being taught in that topic to develop their own PE skill and support with assessing the children.
- Mr Marshall also supports some children in class with their academic learning each morning in the classroom. We believe that this system works very well because it enables Mr Marshall to get to know the children better and can therefore, use his classroom knowledge of the children to challenge them further in their PE lessons and during afterschool clubs.

PE and Sports Premium.

We received £18020* in PE funding. We use our PE and Sports Premium money to build on to the above. Mr Marshall knows all of the children in school and has a clear knowledge and understanding on their participation levels in sport. Using his extensive knowledge of local sport festivals and competitions, he ensure that St Alban's are a major participant in any sporting events happening within Newcastle and success over the years has resulted in St Alban's challenging for regional and national honours.

The Head teacher and staff review annually how to increase the participation levels in sports for all children in our school

Through afterschool clubs, this year Mr Marshall will coordinate whole class participation in the following sports:

Basketball Skipping Athletics Dance

In addition to this and working with other staff, Mr Marshall also selects some children to compete at inter-school level in Football and Basketball.

We offer all of our children at least one sporting activity every week in after school club.
